

## "WE FOUND IT"

***"We were looking for the best carriage, plus improved support and service in our next LP carriage and boy did we find it with Cleereman. After extensive research and comparison between carriage manufacturers the choice was simple – the Cleereman teams knowledge, helpful staff, service and legendary honesty sealed the deal. They really take ownership of every mill to insure not only the installation process is trouble free, but take a lifelong interest to make sure that my mill's production is smooth and profitable."***
