

"...8-10% PRODUCTION INCREASE... OUR PAYBACK WILL BE CRAZY FAST!"

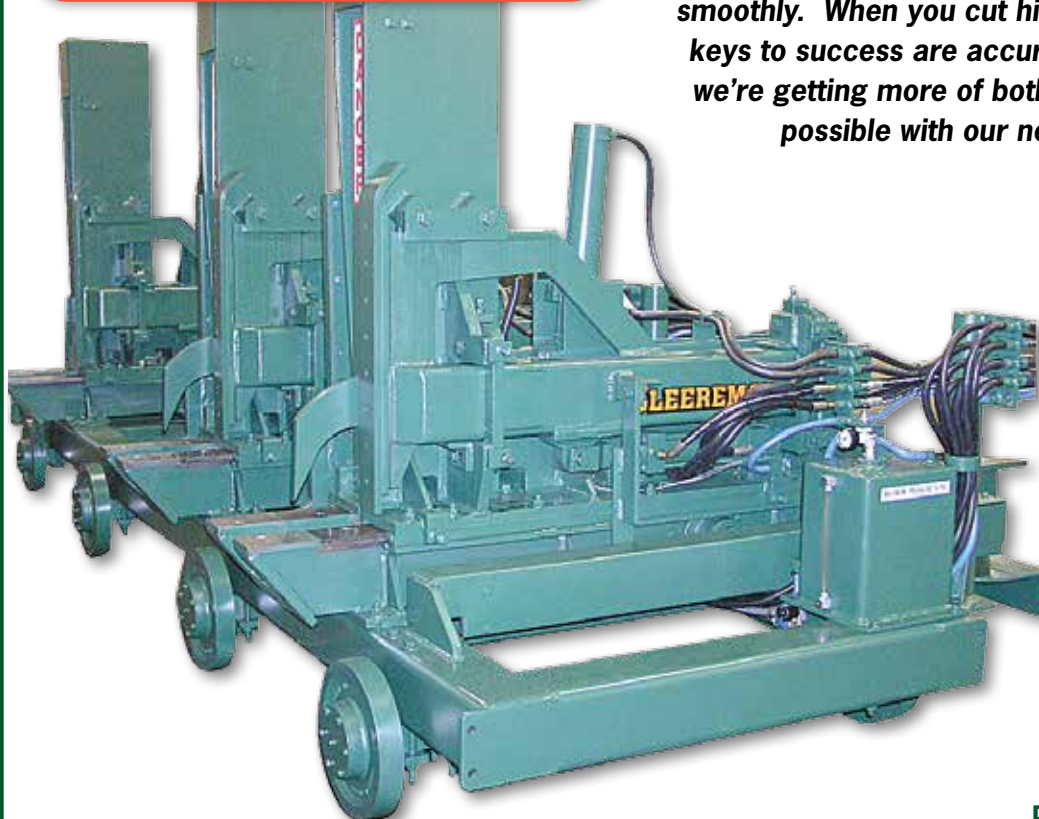

In the last 20 years we've only purchased two pieces of new equipment... we're happy one was a Cleereman HS380 carriage. The Cleereman eliminated recurring downtime and increased our production by 8-10%! That increase will make our payback CRAZY FAST! The decision was simple...

Cleereman's reputation for quality and service before, during and after the sale, plus a price that was lower than anticipated... True to their reputation, the Cleereman team has been first class from start to finish – assisting us with custom designs and options, installation and follow up to insure we're running smoothly. When you cut high grade hardwood, the keys to success are accuracy and production and we're getting more of both than we ever dreamed possible with our new Cleereman Carriage.
